**Produce a magazine or fanzine exploring an ethical or political issue of your choice.**

**Try to pick something that you are passionate about.**

The final magazine should be at least 20 pages long (it can be a digital magazine, although some students may choose to print them).

You must base designs on photographs you have taken yourself, even if they are just as a reference for illustrations.

You could choose to include drawn or handmade elements, or it could be entirely digital.

You do not need to write articles. We are looking for exciting design, so text should be there to accompany the imagery. Consider the work from the typography fortnight.

Consider using quotes, statistics or slogans for the text elements of this.

Your website should include:

80+ Thumbnails

16+ Selections

3 x critical links to designers who have influenced your work aesthetically

Additional links from this presentation for reference

30+ designs for magazine pages

20 final magazine pages (including a cover/back cover)
